Klehms' Nurseries

Arlington Heights,
Cook County, Illinois

WHOLESALE PRICE LIST

Established 1856

SPRING 1916

Phone, Arlington Heights, 22

H. C. PADDOCK & SONS, PRINTERS
ARLINGTON HEIGHTS, ILLINOIS

INFORMATION

LOCATION—Our Nurseries are located only 22 miles northwest of Chicago on the Chicago & Northwestern Railway and can make easy shipment via any road leaving Chicago.

QUALITY—OUR Nursery Stock is grown in the open, unsheltered prairie, and in the most exposed situations, which insures their hardiness, and in soils admirably adapted for forming an abundance of fibrous roots and robust plants. Special attention is called to the fact that our stock is grown a good distance apart in the rows and under the highest state of cultivation, insuring heavier trees and shrubs than are generally offered.

TERMS & CONDITIONS—Prices quoted in this catalogue are net. Baling and boxing will be charged at cost. Boxes 16 x 16, 8 to 10 ft. long, \$1.25; 20 x 20 \$1.50; 24 x 24 \$2.00; 30 x 30 \$2.50.

Cash or satisfactory Bank references must accompany orders except Nurserymen of good standing, to whom the usual terms will be extended.

The greatest possible care is exercised by us to keep our varieties true to name. We hold ourselves in readiness to replace, on proper proof, all stock that may prove otherwise; but it is mutually agreed between the purchaser and ourselves that we shall not at any time be liable for any amount greater than the original cost of the goods.

To receive consideration, claims must be made within five days after receipt of the goods. Claims for damage in transit must be made to the company delivering the goods, and should be presented promptly.

CERTIFICATE OF INSPECTION—A certificate of Inspection will be sent with each shipment, as our Nurseries have been thoroughly inspected and found free of San Jose Scale and other injurious insects and diseases. No scale has ever entered our Nurseries and there is none in the surrounding country.

KLEHMS' NURSERIES

ARLINGTON HEIGHTS, - - - - - ILLINOIS

FRUIT DEPARTMENT.

APPLES.

We have about 50,000 apple trees, 4 years old, headed down early in spring to about 32 inches, which have made an excellent growth with fine tops and are 6 to 7 ft. high, with plenty of lateral branches. Many of them are from $\frac{3}{8}$ to $1\frac{1}{8}$ inch diameter, according to the growth of the variety. They are especially fine for retail trade.

		Per 10	Per 100	Per 1000
